

## INDIVIDUAL REFLECTION: DAVID SESSOMS

### Sashko Stubailo

Sashko is definitely more experienced than myself in web development and was/is a great person to learn from. He offered constructive criticism throughout the project and I was glad to have him on board. When it came to front-end design, his talents were shown and I would like to give him most of the credit for the clean look the website has.

### Victor Pontis

Victor, like Sashko, had more experience than myself in web development but was more than willing to help me if I ever struggled. He is good at getting his own work done, while also helping to motivate others to do the same. I would like to work with him again in the future.

### Santhosh Narayan

Santhosh appeared to have had less experience than myself in web development, but still attempted at times to work on unfamiliar aspects of the code. His drive appeared to have diminished as the project progressed and his efforts became limited. This could have come from his lack of knowledge, but no matter the case I recommend that he take more initiative on his future projects so that he gets more out of them.
