

Agenda 11/21/2013

Victor Pontis, David Sessoms, Sashko Stubailo, Santhosh Narayan

Agenda

- How did the mvp go?
 - Did they find any bugs while testing
 - Have any feedback
- Discuss the idea of making a native mobile app for the site
 - Do they think it is feasible
 - Would it be worth the time?
- Discuss ideas for the styling (just to get opinions)
- We will be adding features like handicap and groups, but are there anymore they wish they had while using the mvp
 - could be little things (ex: auto fill on the game form)
- How does the code look
 - Was the controller skinny enough?
- Rolling out
- Prioritize features for final
 - Groups
 - Handicap
 - Tournaments
 - Mobile App
 - Confirmations
 - Deleting games

Meeting Minutes

- MVP
 - Very polished
 - Scope was on par
 - May be hard to add features without breaking the simplicity
- Code
 - Transfer Points
 - Add feature that will give lesser member more points when they win
 - Deleting games
 - Verifying games out of order
 - Establish points based on ranking at the time regardless of games that are not yet confirmed
- Features for the final
 - Groups
 - High priority

- In group ranking
- Handicap
 - Medium priority
- Verification/Confirmation
 - High priority
 - Notification center
- Deleting games
 - Medium priority
- Native app
 - If we get other features done, maybe try for it
 - Eyas strongly advises against
- Add time of day in game feed
- Adding handicap page
 - would be bulky
 - would like to add it to the “add game” page
